Jones and Bartlett Publishers, Inc, United States, 2011. Hardback. Book Condition: New. 277 x 216 mm. Language: English . Brand New Book. Skills - Based Health Education provides pre-service and practicing teachers with the pedagogical foundation and tools to develop a comprehensive PreK-12 health education program using the National Health Education Standards. Rather than solely focusing on teaching content, an approach which can prove ineffective in developing healthy behaviors, readers learn to teach the content and skills their students need to be healthy and prepared for the 21st century. The book addresses each one of the national standards with specific directions regarding how to apply the standard, and performance indicators to plan and implement performance tasks that target instruction to a student need. Readers are shown how to establish student need, select content and skill performance indicators to meet the need, and plan and implement assessment and instruction. PowerPoint Presentations and a TestBank are available as free Instructor Downloads. Companion Website includes Flashcards, Glossary, and Web Links. An electronic supplement containing important teaching tools from the text including rubrics, worksheets, and appendices is available with every new text at no additional cost! Simply redeem the 10-digit code to access your ExpressPDF course materials.
