## THE CHURCHES OF ROME, 1527-1870: CHURCHES V. I (HARDBACK)

Pindar Press, United Kingdom, 2014. Hardback. Book Condition: New. 248 x 178 mm. Language: English . Brand New Book. The churches of Rome constitute arguably the most important manifestations of art and architecture in the Western world. This book is a detailed description of 251 churches in Rome and the Vatican City, built or decorated between 1527 and 1870, and is based on extensive research in state, church and private archives, as well as an exhaustive survey of modern and historical bibliographical sources. Its aim is to provide a more complete picture of the construction and decoration of these churches than previously known. This entails not only providing the names of the architects who designed the churches, but also the names of the masons (muratori) and stone cutters (scalpellini), who built the churches and whose skills were essential for realising the architect's plans. This depth of information is carried through to the interior decorations. The interior of each church is then described in depth, on a chapel-by-chapel basis, and includes stucco work, marble revetment, monuments, metal work, fresco and painted decorations and altarpieces. For each church, a brief historical introduction is given and a general bibliography supplied. Archival research has brought to light a great number of works of art whose authorship and/or dates have hitherto been unknown, including works by well-known artists but also many that are unknown to scholars. A great number of works of art whose authorship has hitherto been unknown are published in this volume for the first time. An alphabetic index of artists (consisting of over two thousand names) is supplied, and includes the churches where their works are to be found and accurate biographical information for each artist. In addition there is an index of patrons, and a street and rione index. Also...
